

SEPSIS TREATMENT AND RESEARCH (STAR) SYMPOSIUM

EPRESPARK - VECSÉS, HUNGARY

13TH SEPTEMBER 2024

INVITATION

Dear Colleagues,

It is my great pleasure to announce the 1st Sepsis Treatment And Research (STAR) Symposium, which will be held in Vecsés, Hungary, 13 September 2024, and we would like to invite all doctors involved in the care of critically ill patients to this exciting and tradition-creating new event. Please save the date in your calendar!

We invited acknowledged international experts and key opinion leaders in the field of intensive and critical care medicine, and the program of the symposium aimed to present the most important elements and latest research results related to the care of critically ill patients suffering from sepsis and septic shock. In four sections we will discuss hot topics including respiratory and hemodynamic monitoring and support, extracorporeal life support and blood purification, sepsis associated coagulopathy, effects of continuous renal replacement therapy on the pharmacokinetics of different drugs, adjuvant therapeutic options, monitoring sedation and analgesia to prevent pain and delirium, nutrition, and last but not least we will commemorate the legacy of our good friend – Prof. Alan Šustić (1965-2023) - by presenting the important role of nurses. In the fifth section interesting and instructive cases will also be presented.

Beyond the academic program, our meeting will offer an exceptional opportunity to discuss opinions and views, develop cooperation and a common way of thinking, share experiences, and create social networks for a better intensive and critical care.

According to our plans, STAR will be held bi-annually as a satellite symposium of the previously highly successful SepsEast Congress. It will take place in a brand new, fancy and cozy venue, the Eprespark Event Centre, Vecsés. Those who cannot attend in person can also participate in the event in a hybrid way, online.

In my opinion, if we take a look at the topics of the professional program and the list of speakers, there will be no doubt that we are facing a high-quality event, to which we warmly welcome everyone! Let's meet in autumn at the 1st STAR Symposium in Vecsés!

We are looking forward to seeing you!

Zoltán Ruzskai

13TH SEPTEMBER 2024 - FRIDAY

08:50 - 09:00

OPENING

09:00 - 10:10

NEW HORIZONS

Chair: Konstanty Szuldrzynski, Zoltán Ruzskai

Monitoring the lungs at the bedside
András Lovas

Ventilation using alternating PEEP levels for ARDS - the next steps in research?
Filip Depta

ECMO Update
Konstanty Szuldrzynski

Old and novel biomarkers for sepsis
Roman Záhorec

Round Table
Panelists

10:10 - 10:30

COFFEE BREAK

10:30 - 11:40

HEMODYNAMICS

Chair: Krisztián Tánzos, Roman Záhorec

How much fluids do we need?
Jan Benes (online)

Vasopressors - where are we now?
Zoltán Ruzskai

Positive inotropic treatment in septic shock
Marko Kurnik

Blood transfusion in the ICU: for whom, when and why?
Angéla Mikó

Round Table
Panelists

11:40 - 13:00

LUNCH

13TH SEPTEMBER 2024 - FRIDAY

13:00 – 14:10

ORGAN DYSFUNCTIONS

Chair: Krisztina Madách, Milosz Jankowski

Pharmacokinetic changes during CRRT
Lóránd Erdélyi

Hemoadsorption in ARDS
Csenge Szigetváry

Coagulopathy in sepsis
Krisztián Tánzos

The role of immunoglobulins
János Fazakas

Round Table
Panelists

14:10 – 14:30

COFFEE BREAK

14:30 – 15:40

PATIENT CARE

Chair: Zsolt Molnár, János Fazakas

Epidemiology of sepsis
Krisztina Madách

Monitoring the brain - PAD
Milosz Jankowski

Nutrition of the critically ill patients
Gergely Bokrétás

Nursing (in memoriam Alan Sustic)
Zsolt Molnár

Round Table
Panelists

15:40 – 16:00

COFFEE BREAK

13TH SEPTEMBER 2024 - FRIDAY

16:00 – 17:00

CASE REPORTS

Chair: Filip Depta, Zoltán Ruszkai

Angiotensin II in refractory shock after cardiac surgery due to infective endocarditis

László Szudi

Thousand faces of *S. pyogenes*

István Mészáros

Multidisciplinary approach in necrotizing fasciitis

Csanád Geréd

I survived sepsis...

TBA

17:00 – 17:10

CLOSING

Zoltán Ruszkai
